Ms.Pallavi Sood

VISION

“To maximize fresher employability by bridging education with real-world opportunities through innovation and mentorship.”

PROGRAM OVERVIEW : FINANCE

In a world of volatile markets and digital transformation, the finance professional is the ultimate strategist. At **NS3EDU**, we bridge the gap between academic accounting and high-stakes financial decision-making. Our **Industry Based Curriculum (IBC)** ensures you master the analytical tools required by global banks, consulting firms, and corporate finance departments.

The NS3EDU Edge: "We focus on the **Practical Application of Capital**, teaching students how to read between the lines of a financial statement to find hidden growth opportunities."

THE MULTI-PILLAR FINANCE CURRICULUM

Module 1: Corporate Finance & Accounting Mastery

- **Advanced Financial Accounting:** Mastery of IFRS and Indian AS standards.
- **Cost & Management Accounting:** Budgeting, variance analysis, and cost control strategies.
- **Corporate Valuation:** Understanding DCF (Discounted Cash Flow), Relative Valuation, and Asset-based models.
- **Financial Statement Analysis:** Deep dive into Profit & Loss, Balance Sheets, and Cash Flow statements.

Module 2: Investment Banking & Equity Research

- **Capital Markets:** Primary and Secondary markets, IPO processes, and Private Equity.
- **Equity Research:** Analyzing company fundamentals, industry trends, and building "Buy/Sell" reports.
- **Mergers & Acquisitions (M&A):** Understanding the deal lifecycle, due diligence, and post-merger integration.
- **Fixed Income & Derivatives:** Options, Futures, and Bond market mechanics.

MODULE 3: TAXATION & REGULATORY COMPLIANCE

- **Direct & Indirect Tax:** Comprehensive training on **GST**, Income Tax filing, and Tax Planning.
- **Corporate Law:** Understanding the Companies Act and SEBI regulations.
- **Audit & Assurance:** Principles of internal audit and statutory compliance.

FINTECH & FINANCIAL ANALYTICS

- **Financial Modeling:** Building dynamic models using **Advanced Excel**, VBA, and Macros.
- **Data-Driven Finance:** Introduction to **Python for Finance** and **SQL** for querying financial databases.
- **FinTech Ecosystem:** Understanding Blockchain, Digital Payments, and Neo-banking models.
- **AI in Finance:** Using AI for credit scoring, fraud detection, and automated trading algorithms.

PLACEMENT & CAREER GROWTH

Our **45-day simulated internship** puts you in the role of a Financial Analyst at **NS3TechSolutions**. You will:

- **Investment Pitch:** Create a comprehensive valuation report for a tech startup.
- **Tax Audit:** Perform a simulated GST reconciliation for a mid-sized enterprise.
- **Portfolio Management:** Build a diversified investment portfolio and track its risk-adjusted returns (Sharpe Ratio).
