Mr.Aseem Midha

Mr.Ishu Goyal

Ms.Pallavi Sood

## VISION

**“To maximize fresher employability by bridging education with real-world opportunities through innovation and mentorship.”**

# PROGRAM OVERVIEW : LOGISTICS & OPERATIONS

Logistics and Operations are no longer back-office functions; they are the strategic frontlines of business survival. At **NS3EDU**, we train you to manage the complex web of global trade, from raw material sourcing to "Last-Mile" delivery. Our **Industry Based Curriculum (IBC)** ensures you are ready to manage the high-velocity operations of the 2026 e-commerce and manufacturing sectors.

**The NS3EDU Advantage:** "We don't just teach warehousing; we teach **Elastic Logistics**—the ability to scale operations instantly in response to market volatility."

# THE END-TO-END CURRICULUM

## Module 1: Core Logistics & Freight Management

- **Multimodal Transportation:** Mastering Road, Rail, Air, and Sea freight dynamics.
- **Freight Forwarding:** Documentation, Custom clearances, and International Commercial Terms (Incoterms 2026).
- **Last-Mile Optimization:** Strategies for urban delivery, dark stores, and drone-assisted logistics.
- **Reverse Logistics:** Managing returns and the circular economy for sustainable growth.

## Module 2: Warehouse & Inventory Strategy

- **Smart Warehousing:** Design and layout optimization, Cross-docking, and Automated Storage/Retrieval Systems (ASRS).
- **Inventory Control:** JIT (Just-in-Time), Lean management, and Demand Forecasting using Statistical Models.
- **Material Handling:** Unit loads, packaging engineering, and warehouse safety protocols.

## Module 3: Operational Excellence & Quality

- **Process Analysis:** Mapping workflows, identifying bottlenecks, and the **Theory of Constraints**.
- **Quality Frameworks:** Training in **Six Sigma (Green Belt level)**, Total Quality Management (TQM), and Kaizen.
- **Procurement & Sourcing:** Supplier relationship management (SRM), contract negotiation, and global sourcing risks.

# Placement & Career Growth

Our **45-day simulated internship** places you in the operations hub of **NS3TechSolutions**.

You will:

**1.Route Optimization:** Redesign a delivery network to reduce fuel costs by 15% using AI tools.

**2.Inventory Audit:** Perform a simulated "Wall-to-Wall" inventory count and discrepancy reconciliation.

**3.Vendor Evaluation:** Create a weighted-scorecard to select the best 3PL (Third-Party Logistics) provider for a retail client.
